## ABOUT THE PROGRAMME

This One-Week Faculty Development Programme (FDP) on “Advancing Research Excellence and Innovation: From Idea to Impact” is designed to strengthen faculty competencies and researchers across the entire research lifecycle. The programme covers key areas including research problem identification, methodology, data analysis, academic writing, and publication practices. It also introduces participants to modern tools and Artificial Intelligence (AI) applications for enhancing research productivity and quality. Special emphasis is placed on research ethics, funding opportunities, innovation, Intellectual Property Rights (IPR), and entrepreneurship. Through expert sessions, the FDP aims to empower participants to produce high-quality research and translate ideas into impactful academic, societal, and entrepreneurial outcomes.

## OBJECTIVES

- To develop a strong research mindset through effective problem identification and gap analysis.
- To provide knowledge of research design, methodology, and systematic literature review techniques.
- To familiarize participants with modern tools for data collection, analysis, and reference management.
- To introduce AI tools for research, academic writing, and data-driven insights.
- To enhance academic writing skills with emphasis on ethics, plagiarism avoidance, and publication quality.
- To promote innovation, research funding skills, IPR awareness, and entrepreneurial thinking.

## EXPECTED OUTCOMES

- Develop research problem identification and a strong analytical mindset.
- Design rigorous studies and apply statistical/data analysis tools effectively.
- Enhance academic writing, literature review, and ethical publishing practices.
- Prepare proposals, secure funding, and manage research projects efficiently.
- Promote innovation, IPR awareness, and societal impact of research.
