Vice Chancellor's Message

Bhagat Phool Singh Mahila Vishwavidyalaya, a premier State University for Women, is truly one-of-its-kind institution. Committed to empowerment of rural women through education, the university is a living example of a judicious blend of the Gurukul traditions and modern, technology-driven education. While the University publishes its Annual Report for the year 2025, I, as the head of this great institution, feel proud of the milestones achieved during the year. I congratulate the entire by the university family for the achievements and exhort them to continue to strive for academic excellence in years to come.

The Annual Report of an institution is an important document that registers the growth of the institution along various parameters during the year. As the field of Higher Education undergoes transition in the wake of National Education Policy 2020, new possibilities and opportunities open up; but they come with new challenges as well. The onus of tapping the possibilities while negotiating the challenges with a positive approach is on all the stakeholders. The accomplishments enumerated in the Annual Report 2025 reaffirm the university's intent to carve a niche for itself in the edifice of Higher Education in India. At the same time, however, I believe it's high time our efforts got global recognition. I call upon the faculty to bring international laurels for the institution by expanding their academic and research collaborations.

Once again, I congratulate each member of the university family for contributing to the growth of the university. I am sure that through collective and concerted efforts, the university shall register its presence worldwide more emphatically.

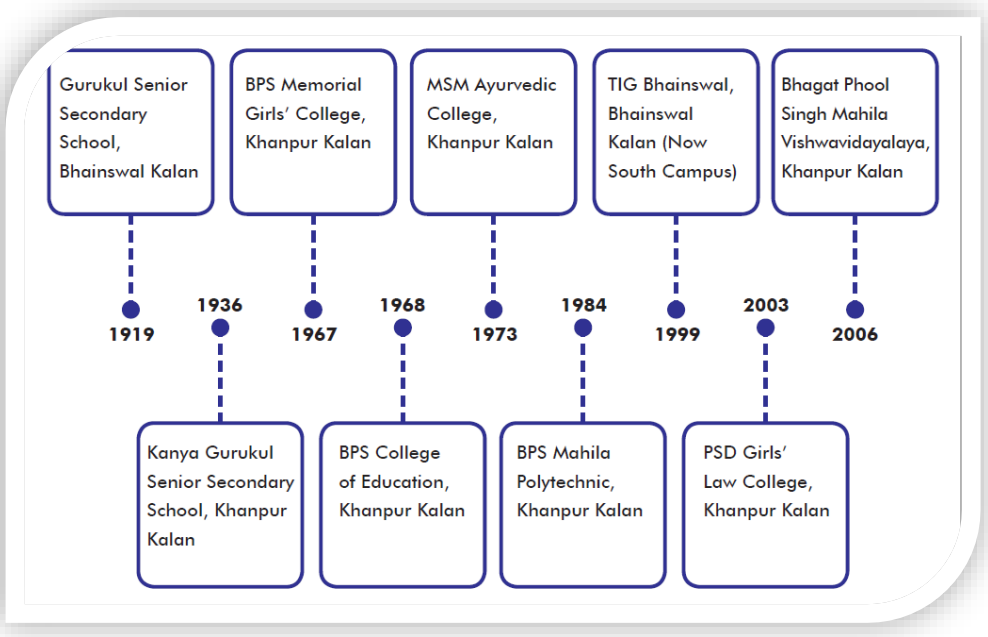
The University

Bhagat Phool Singh Mahila Vishwavidyalaya traces its origins to two Gurukuls established by the visionary social reformer *Bhagat Phool Singh Ji* who inspired by the progressive ideals of the *Arya Samaj*, founded a Boys' Gurukul in 1919 at Bhainswal Kalan, followed by a Girls' Gurukul in 1936 at Khanpur Kalan. Resigning from his position as a Patwari, he dedicated himself to women's education and empowerment—courageously beginning the Kanya Gurukul with only three girl students, despite strong opposition from conservative sections of society.



After his martyrdom in 1942 at the hands of fanatics, his daughter Padamshri Subhashini continued his mission, expanding women's education through the establishment of several professional institutions in the region. In March 2003, the management of the institutions came under the Mahasabha. In August 2006, the Government of Haryana took over the institutions and established Bhagat Phool Singh Mahila Vishwavidyalaya—the first state university for women in the entire region of North India.

10. Activities of and Support from Parent-Teachers association if any- NIL

11. Best practices –

(A) Inculcation of Students in social and community services during Internship Program

There are numerous areas within the community that could benefit from student involvement, which would help cultivate their leadership skills. Notable examples include adult literacy initiatives and awareness campaigns addressing current social issues. These efforts align with the institution's mission and objectives. The Department of Education organizes and participates in various community engagement programs each academic session, offering a range of activities aimed at instilling social values in future educators. The Department believes that a solid understanding of social responsibilities enhances a teacher's comprehension of the academic ecosystem and their professional role. As educators, it is our duty to create a safe and nurturing environment for our students and to guide them in becoming responsible citizens.

Following activities were organised by Department of Education in Gohana and various nearby villages i.e GarhiUjale Khan, Gamri ,KhanpurKalan, Kasandi.

11. Best practices –

12. Being one of the best practices followed at DPER, the Herbal Garden is utilized not only for academic and research purposes but also as a platform to engage students in hands-on learning and digital innovation. All medicinal plant species available in the Herbal Garden are systematically distributed among students across all semesters, ensuring equal exposure and responsibility. As part of this initiative, under the supervision of the Herbal Garden Incharge, students are encouraged to prepare digital monographs of the assigned plants. These monographs include detailed information about the plant's taxonomy, medicinal uses, pharmacognostic characteristics, and cultivation details. To enhance accessibility and learning, QR codes are generated by the students, which when scanned, display the complete digital profile of the respective plant. This practice not only promotes experiential learning and digital skill development but also strengthens the integration of traditional knowledge with modern technology.

10. Activities of and Support from Parent-Teachers association if any

11. Best practices – Orientation programme –The Department organized a ten-day Orientation Programme for the newly admitted students of Social Work. The sessions enabled students to develop a preliminary understanding of the discipline, including its scope, fieldwork-based pedagogical approach, and emerging professional opportunities in governmental and non-governmental sectors. As part of the Programme, Semester-I students will also undertake field exposure visits to selected agencies and community settings. These visits are intended to help students observe first-hand the role of governmental and civil society initiatives in addressing social issues, thereby fostering early field sensitization and linking classroom inputs with practice realities.

Individual Conference: Individual Conference is a tutorial-based method of fieldwork supervision wherein the department supervisor works closely with the student to integrate classroom-based theoretical knowledge with practical field experiences in communities or agencies. It creates a structured space for reflective learning, feedback, and clarification of concepts, thereby strengthening the student's professional development and field competence.

Concurrent Fieldwork in Social Work Practice in the MSW Program: Concurrent fieldwork constitutes a central pedagogical component of the Master of Social Work (MSW) program, wherein students simultaneously engage in field practice and classroom learning throughout the semester. This model emphasizes the continuous integration of theoretical knowledge with real-world experience in communities and organizational settings. Students are placed in governmental, non-governmental, clinical, community-based and institutional agencies in alignment with semester-specific learning objectives, through which they undertake casework, group work, community organization, research, documentation, and advocacy activities. The concurrent nature of the placement enables students to relate classroom content: such as social work methods, human behaviour theories, research techniques and policy frameworks: to the socio-cultural and practice realities encountered in the field. Supervision forms an essential component of this process; through individual conferences, group conferences and structured feedback, the supervisor assists students in applying ethical principles, exercising professional judgment, strengthening communication and documentation skills, and engaging in reflective learning. Ultimately, concurrent fieldwork fosters the development of professional identity and practice competence by exposing students to the complexities of vulnerable populations, organizational systems and community contexts, thus preparing them for diverse roles within social welfare, health, development, corporate and policy environments.

Group Conference is conducted as a pedagogical tool to enhance students' learning through shared fieldwork experiences. It is organized with small groups of

students under the guidance of their respective fieldwork supervisors. During the Conference, students present and reflect on their field experiences, discuss social issues encountered in the community, and critically analyze the interventions undertaken. The collaborative nature of the Group Conference allows students to learn from each other's perspectives, receive constructive feedback, and collectively explore context-specific strategies for addressing social problems at the grassroots level. To ensure systematic implementation, a comprehensive schedule of Group Conferences shall be announced by the Department.

Block Field Work: At the end of Semester–II of the first year, students shall be required to undergo a four-week Block Field Work training in a social welfare agency or project within or outside the State of Haryana. Block Field Work is designed to serve as a pre-employment exposure, enabling students to apply foundational social work knowledge and skills in a structured professional environment.

Placement organizations shall be identified in consultation with the students, keeping in view the nature of work, availability of professional supervision, and learning opportunities. Each student must be placed under the supervision of a professionally qualified social worker or equivalent practitioner in the host agency to ensure systematic guidance, evaluation, and professional socialization.

Running Community Resource Centres in Adopted Villages:

The Department operates Community Resource Centres (CRCs) in its adopted villages as localized, culturally sensitive hubs of support, information and service facilitation. These Centres serve as spaces where community members can access targeted programmes and services based on their needs and interests. Key areas of engagement may include disability support, identity documentation, pension and social protection services, and other welfare entitlements. Through the CRCs, students gain exposure to community-level problem-solving, social welfare systems, and participatory engagement with marginalized groups.

11. Best practices:- Department of Psychology

The Department of Psychology was established in September 2024 and is currently in its inception and developmental stage. Despite being newly constituted, the Department has initiated several structured academic and skill-oriented practices to ensure quality education, professional readiness, and holistic student development.

A) Paid Internship Initiative for M.A. Psychology Students

The Department of Psychology has introduced a structured Paid Internship Initiative for students enrolled in the M.A. Psychology programme as part of its commitment to experiential learning and professional skill development.

Under this initiative, students are placed in reputed schools and hospitals, where they receive hands-on exposure to real-life psychological settings. The internship is designed not only to bridge the gap between theoretical knowledge and practical application but also to cultivate essential professional competencies.

Through supervised field engagement, students actively participate in activities such as:

- Conducting basic psychological assessments under guidance
- Assisting in counseling sessions
- Observing case discussions and therapeutic interventions
- Interacting with children, adolescents, patients, and multidisciplinary teams
- Preparing reports and maintaining ethical documentation

The paid component of the internship serves as both recognition of students' professional contribution and motivation for responsible engagement. More importantly, it instills a sense of accountability, work ethics, and professional identity among the trainees.

This initiative has significantly contributed to:

- Enhancement of communication and interpersonal skills
- Development of counseling and case-handling competencies
- Strengthening of ethical sensitivity and professional conduct

- Increased confidence in dealing with diverse psychological concerns
- Better employability and readiness for higher studies and research

By integrating structured, supervised, and compensated field training, the Department of Psychology reinforces its vision of producing competent, empathetic, and industry-ready mental health professionals. This initiative stands as one of the department's exemplary best practices, aligning with NEP-2020's emphasis on skill- based and experiential learning

A) Field Visit :-

Field visits serve as a vital bridge between classroom learning and real-world psychological practice, enabling students to translate theoretical constructs into meaningful professional understanding. The Department of Psychology organizes structured field visits to diverse institutional settings such as schools, hospitals, rehabilitation centers, NGOs, mental health clinics, and community organizations.

These experiential engagements provide students with firsthand exposure to assessment procedures, counseling frameworks, behavioral intervention strategies, special education settings, and multidisciplinary team functioning. By observing and interacting with field professionals, students gain practical insights into case management, ethical considerations, documentation practices, and client communication.

Such visits significantly enhance:

- Analytical and observational competencies
- Situational awareness and professional adaptability
- Emotional intelligence and empathetic understanding
- Collaborative and interpersonal skills
- Clarity regarding specialization and career pathways

Students are required to submit reflective reports and participate in post-visit discussions, ensuring structured academic integration of experiential learning.

Measurable Outcomes (Indicative):

- Number of field visits conducted: 30 per academic session
- Types of institutions covered: Schools (4), Hospitals (1), NGOs/Rehabilitation Centres (0), Clinics (0)
- Student participation: 100% participation of enrolled M.A. Psychology students
- Reflection reports submitted: 100 % compliance
- Feedback response: Over 100 % students reported enhanced practical understanding and professional confidence

This initiative aligns with NEP-2020's emphasis on experiential and skill-based education and reflects the Department's commitment to producing competent, ethically grounded, and practice- ready psychology professionals.

. 
C) Student-Centric Initiatives

1 Personalized Mentoring System

Given the newly established nature of the Department, close faculty-student interaction has been prioritized. A structured mentoring system provides academic guidance, research orientation, career counseling, and emotional support to students.

2 Skill-Based Pedagogical Approach

The Department emphasizes:

- Case-based learning
- Role plays and simulated counseling sessions
- Practical demonstrations of psychological tools
- Reflective learning exercises

3. Research and Academic Enrichment

From the foundational stage itself, students are oriented towards:

- Research methodology and statistical applications
- Ethical considerations in psychological practice
- Academic writing and analytical thinking

This early research exposure strengthens scholarly aptitude and prepares students for higher studies and professional engagement.

This ensures development of applied competencies alongside theoretical knowledge. Future plans for next Academic year.

4. Community Engagement and Social Responsibility

The Department actively promotes mental health awareness and community outreach initiatives. Through awareness sessions, counseling interactions, and social responsibility programmes, students develop empathy, ethical sensitivity, and societal commitment.

12. Future Plans for the Next Academic Year

- To integrate modern educational technologies and digital tools into teaching and training programmes to enhance digital competency and classroom effectiveness.
- To provide enhanced practical exposure to students through structured visits, internships, and training in reputed institutions such as hospitals, mental health clinics, rehabilitation centres, special schools, and counseling centres, enabling them to gain deeper insight into professional practices in Psychology.
- To organize Faculty Development Programmes focusing on innovative pedagogy, competency-based assessment, and experiential learning approaches.
- To conduct NEP-2020 oriented workshops and seminars on Artificial Intelligence, advanced research methodologies, psychometric applications, and statistical analysis for scholars and faculty members.
- To develop collaborations with schools, hospitals, NGOs, mental health organizations, and allied institutions for internships, supervised training, and placement opportunities.
- To strengthen student mentoring, career guidance, and preparation for competitive examinations and higher research pathways.
- To enhance community outreach initiatives such as mental health awareness drives, counseling camps, and social responsibility programmes.
- To establish and strengthen a well-equipped Psychology Laboratory to promote hands-on training in psychological testing, assessment, and research practices.

वी.सी. प्रो. सुदेश के अनुसार महिला विश्वविद्यालय समेत 28 प्रतिष्ठित शिक्षण संस्थानों के मध्य समझौता ज्ञापन का आदान-प्रदान हुआ। इस समझौता ज्ञापन का उद्देश्य शैक्षिक ज्ञान को वास्तविक प्रशासनिक और सामाजिक चुनौतियों से जोड़ना है, ताकि शोध केवल पुस्तकों तक सीमित न रहकर समाज और शासन की समस्याओं का समाधान बन सके।

वी.सी. प्रो. सुदेश और सी.एम. नायब सिंह सैनी समझौता ज्ञापन का आदान-प्रदान करते हुए। (अरोड़ा)

सी.एम. नायब सिंह सैनी ने कहा कि इन सहयोगों के माध्यम से राज्य सरकार की प्राथमिक योजनाओं और कार्यक्रमों के इम्पैक्ट इवैल्यूएशन के साथ-साथ क्षमता-निर्माण कार्यक्रम तथा विद्यार्थियों के लिए इंटर्नशिप व फील्ड इंगेजमेंट को बढ़ावा दिया जाएगा। इससे नीति निर्माण अधिक सशक्त होगा और युवा प्रतिभाओं को वास्तविक प्रशासनिक अनुभव भी प्राप्त होगा।

सी.एम. ने कहा कि इन पहलुओं से नीति निर्माण सशक्त होगा, विद्यार्थियों के लिए शिक्षा, कौशल, नवाचार, रोजगार, और सामाजिक उत्थान का मजबूत आधार तैयार होगा। नीव पोर्टल और ज्ञान सेतु मिलकर हरियाणा की शिक्षा को भविष्य के लिए समावेशी और वैश्विक मानकों के अनुरूप बनाएंगे।

सी.एम. नायब सिंह सैनी ने कहा कि नीव पोर्टल का उद्देश्य एन.ई.पी.-2020 के प्रावधानों का वास्तविक, निष्पक्ष और सतत मूल्यांकन करना है। यह पोर्टल रियल-टाइम डेटा, प्रदर्शन संकेतक और भविष्यसूचक विश्लेषण के माध्यम से शिक्षा प्रणाली की निरंतर निगरानी करता है। इससे स्पष्ट होगा कि कौन-सी संस्थाएं नीति के अनुरूप काम कर रही हैं और कहां सुधार की जरूरत है।

सी.एम. ने कहा कि पहले चरण में नीव पोर्टल को विश्वविद्यालयों में लागू किया जा रहा है, इसके बाद कॉलेजों और आगे चलकर स्कूलों और अन्य शैक्षणिक संस्थानों में इसका विस्तार किया जाएगा। सरकार का लक्ष्य वर्ष 2047 तक सभी शैक्षणिक संस्थानों में 100 प्रतिशत एन.ई.पी.-2020 अनुपालन और डिजिटल ट्रैकिंग सुनिश्चित करना है।

सुनीता दल ने कहा कि छात्राएं अपने माता-पिता का सपना पूरा कर सकती है उन्हें बुलंदियों पर लेकर जा सकती हैं। छात्राओं से आह्वान करते हुए उन्होंने कहा कि रास्ते से न भटकें, अपने शिक्षकों के बताए मार्ग पर चलें। अपनी एनर्जी को सही दिशा में लगाएं। मां अपने बच्चों की प्राथमिक शिक्षिका होती है बच्चों को संस्कारवान शिक्षा देना माता की जिम्मेदारी होती है ।
