Accomplished academic leader with over three decades of experience, excelling in key roles across four major universities and NIT Kurukshetra. Renowned for blending rigorous scholarship in Climate Change and Environmental Economics with a keen interest in AI-driven economic research, contributing to a forward-thinking approach in the field. A steadfast commitment to professional ethics and societal progress is complemented by a robust international presence within European and South Asian academic circles. Proven institution builder with leadership in academic governance and a strong focus on mentoring doctoral scholars, ensuring that research remains both policy-relevant and transformative.
